Subject: Thank you...

Peter,

I wanted to take a moment to stop and thank you for your part in our relocation of The Chrysalis to Northwood Commons Professional Center. After almost two years of looking for not just a suitable situation, but the right situation for our business, we were very pleased to find a new home here. Previous attempts and dealings with other property management groups were not as favorable, to say the least.

The things that drew us here were location and professional, yet natural setting, size and suitability of the office space itself. What really stood out to us though was the obvious pride and care you took in the property and your efforts to make improvements. The signage outside on the building facade, directories in the parking lot and building have made us easier to find, and beautiful plants and benches make visiting us enjoyable for our clients. The improved lighting both in breezeways and parking lot make for a much safer environment for those of us working later hours and we feel more at ease. Thanks to you and the team, the build-out and move in process was surprisingly fast and easy!

We have enjoyed connecting with our neighbors and fellow business owners as well as cross-promoting one another. It's clear that your intent was to fill this Center with quality businesses and people. This natural, beautiful yet professional setting is ideal for our health and wellness based business and we hope to be here for quite some time. I look forward to working with you in the future!

Sincerely,

--
